

BEEM063 WEDNESDAY

- Group Confirmation
- Tony Preparation
- Selected past talks

(Maria on UI/UX, Sarunas' 10K Report Big Data Research)

- Last Year's Hackathon Winner: Sahana

OVERALL HACKATHON PROCESS

1. Brainstorm now

2. Prepare pitch decks for live presentation Friday afternoon

OVERALL HACKATHON PROCESS

3. Next week proposal video

4. Work with your team mates for 10 weeks
(keeping a personal log)

5. Submit main video and individual reports

BUT FIRST, CONFIRM YOUR GROUPS AND GET INTO THEM NOW!

Please form into your groups now – if you have not, now is the time to get this sorted.

I will confirm on a spreadsheet.

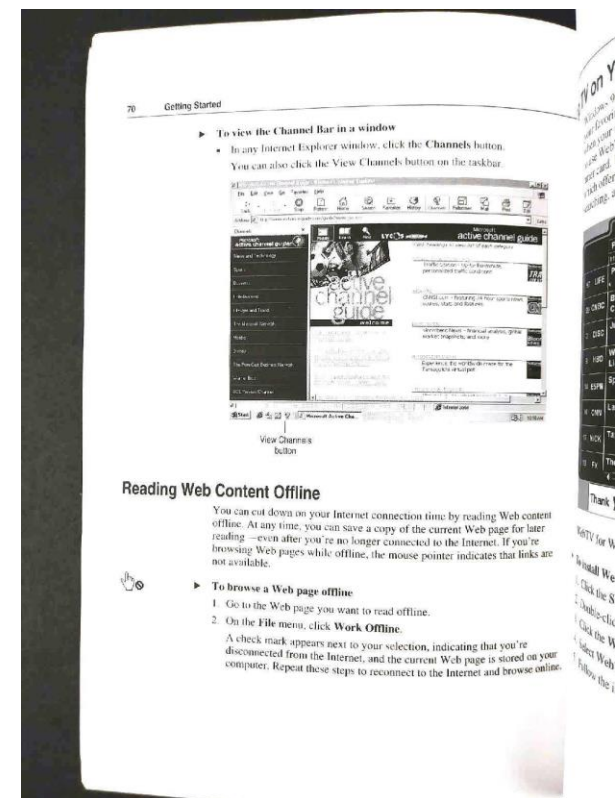

Have a chat, and discuss your existing skills/knowledge base for 10 minutes.

- Optional Modules sat
- Hard Skills (which programming languages/tools etc)
- Soft Skills (communication, strategy etc)
- Relevant Past Experience

SECOND TASK: KNOW HOW TO SELL YOURSELF

Take responsibility for your own learning
but especially ***marketing yourself***.

REMINDER FROM TONY ON PERSONAL CYBER SECURITY

When using tools (especially AI) on phones, laptops etc, always ask yourself what data is being shared

- Turn telemetry off
- If something is free, you are the commodity

Tasks

Team Name :

Overview : Two Paragraphs

Team members: First name

Title Slide

- Company Name
- Tagline
- Date
- All Presenters Names/Contact Information

Problem Statement

- Clear and concise description of the problem your startup is solving.

Solution

- Description of your product/service and how it uniquely solves the problem.

EMPOWERING FARMERS EMPOWERING THAILAND

Our peer-to-peer lending platform connects farmers and investors through direct, secure, and transparent transactions. We provide affordable loans to farmers, ensure proper fund utilization, and offer investors the opportunity to support agricultural projects with competitive returns.

THE PROBLEM

Traditional financial markets are often inaccessible with High Barriers to Entry

Geographical and financial barriers restrict access.

Lack of liquidity and transparency in traditional centralized markets.

Inaccessible Fractional Ownership and Risk Management Needs in DeFi

Your Turn – please work in your groups (this is NOT a commitment to your problem statement, just a chance to explore ideas ...)

10-K

['ten 'kā]

A comprehensive report filed annually by a publicly-traded company about its financial performance and is required by the U.S. Securities and Exchange Commission (SEC).

Product Life Cycles in Corporate Finance

Gerard Hoberg

Marshall School of Business, University of Southern California

Vojislav Maksimovic

Smith School of Business, University of Maryland

Example SEC 10K submission for Apple:

<https://www.sec.gov/ix?doc=/Archives/edgar/data/0001633917/000163391724000048/pypl-20240331.htm>

Theoretical Model from Hoberg & Maksimovic (2022)

- Split company investment cycle into 4 stages:
 1. Product Innovation
 2. Process Innovation
 3. Maturity
 4. Decline
