Programmable documentary escrow for SME cross-border trade: funds release on document proof, not buyer approval. A working prototype - demonstrated settling real USDC on Base.

THE VIDEO (5 MINUTES)

https://youtu.be/Vlgn08_cVEM

The pitch, with the product demonstrated live on Base Mainnet.

LIVE PROTOTYPE - TRY IT, NO SETUP

block-med-nine.vercel.app

Demo sign-in is passwordless: pick a company under "Company access" on /dashboard.

SOURCE CODE AND ALL DOCUMENTS

github.com/nchengg/BlockMed

Public. The README opens with a guide for the marker and the submission document set.

ON-CHAIN PROOF - THE MAINNET SETTLEMENT

basescan.org/tx/0xd688a6cb...60d7ec1e

The release transaction of a real deal: escrow paid the seller on document compliance.

THE ESCROW CONTRACT (BASE SEPOLIA TESTNET)

sepolia.basescan.org/address/0x17e8...f0ac

The contract behind the live prototype, with the full testnet transaction history.
